Life in the UK

Journey to “Education and Living” in England

Your applications and procedures are completed. Now you can breathe a sigh of relief. Now it's time to prepare for the beginning and the after of your new life!

Arrival and Airport Transfers

We think it is one of the most important issues as to how students and their families, whose applications have been approved, will begin their new lives in England. Because you and your children are really precious to us. We will not leave you alone with your flight organizations and the transfer you will take afterwards. Your UniqueLEC consultant will again plan this process with you and guide you through it.

Accommodation: Determining Your New Living Location in England

After your education or school approval, we will come to England to guide you on affordable and reliable accommodation service within or around the school, according to your request. We will evaluate the most reliable, accredited home-stay accommodation or the most affordable accommodation options special to you and together reach the solution that will make you the happiest.

England Visa Preparation and Application Process

It should be noted that there are strict rules governing the conditions for obtaining English visa. Before applying for a visa, our consultants will guide you on this matter. UniqueLEC's most important priority is to solve/answer

your or your children's questions/problems at every stage of this difficult and stressful process. Remember! At UniqueLEC, your consultant that will support you 24/7 both in Turkey and England is only a phone call away.

Country / Program Briefing and Preparation

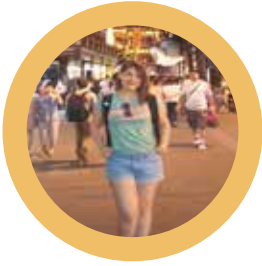

All overseas students wishing to study in England must first obtain a visa. There are strict rules governing the conditions for obtaining an English visa and our consultants will advise and guide you before applying for a visa. For more information on visas, see Graduate Students in the UK or the UK Border Agency websites.

Most universities provide students with special student rooms, usually inside or near the main university campus. If you don't want to benefit from the university's offered accommodation service, you can take a look at good accommodation options available in many cities. Our consultants will take a close interest in this matter, they will offer a wide range of options and this will be their duty.

Our aim is to work with families to ensure that all questions of your children are answered from the departure from Turkey to the arrival in England.

Testimonials

**Hazal Özkan / Boğaziçi
Uni. Student**

"We've experienced a fruitful season of practicum with our mentor teacher Çiğdem Hoca in Tarabya British Schools. She did not hesitate to share her ideas and knowledge about the field, providing us with the situations where we could improve ourselves as teacher candidates. As well as benefiting from her as an experienced teacher in her field, we have developed a firm relationship with her. Not only as a mentor teacher, she always asked our opinions about everything and she was like a guide, protecting us and pushing us forward to step up. I am grateful to Çiğdem Hoca for her effort and caring us as not only interns but also as individuals."

**Our parent
Burcak Ersever**

"I've known Çiğdem Hanım for three years now. I can say that she communicates wonderfully with her students. She gains the trust of children with her positive energy and friendly approach. She is very successful in following the students and organizing the organization. As a mother she relaxes me in many ways"

**Our Parent Esra Abacıoğlu
Akcan**

"Çiğdem Zent Gürel has been my friend and the Deputy head Teacher at Tarabya British schools for the last three years. Since both of our children are in the same class, Çiğdem is a teacher, educator, and mother at the same time. She always worked towards success, her approach to children in the school, to motivate them, to establish a close relationship with them is one of the most beautiful features she can have. I will be sorry for our name when she returns to London. But we hope that the strength of our bonds will bring us together again, and I believe that she will be fantastic in her new job."

**Nurcihan Güneşdoğan
Doğru**

"England was one of the countries I wanted to see since I was a child. However, it was impossible for me to go to this country both economically and the difficulty of obtaining a visa. The individual assistance of my friend Çiğdem, the director of the Tarabya English Schools, and her teachers, provided me with a great help during my one-month stay in London, and my excellent language training. I want to thank Ms. Çiğdem for her interest and support. All plans and programs before and after I went to London without problems and any loss"

It is essential for us to be the most appropriate solution proposals for our clients and students. We research schools and programs according to their language levels, goals, dreams, wishes and budgets.

Çiğdem Zent Gürel

To thrive, grow up and get educated in an ideal academic and social environment is every child's right. Finding the right school for your child is one of the most important decisions by emotional and financial means. Individuals and families need help and guidance to find the best educational options.

This process can be enjoyable and fun, but it can also be challenging, overwhelming and stressful. In addition, time and knowledge are required for this process. For this reason, a consultant to guide families and students will enable having everything develop more smoothly and easily, the students be more organized in the process of admission, and the process to be less stressful.

Çiğdem has been an active English teacher in the UK's education system for almost 18 years. Recently, she worked at a British school in Turkey for a good period of time. She knows the families and the needs of students. Also, having the experience in the British education system for many years, she provides services in language school, summer school, middle school, high school and university education through the Unique London Education Consultancy she has founded.

Education Options

Post Graduate Programs in the UK

We offer our students a Master of Science (MBA) education in almost every field, especially in the UK.

University Programs in the UK

Undergraduate studies in the UK generally begin every year as of the end of September and beginning of October. At the very least, some schools start in January / February as an exception.

High Schools in England

The New British Diploma focuses on practical training, work experience and professional approach rather than academic work.

Primary and Secondary Education in England

The education system in England is divided into four main sections: primary education, secondary education, further education and higher education.

Language Schools in England

One of the best options that can be chosen for a person who is looking for UK language school reviews and considering going abroad for language school is definitely England.

Summer Schools in England

Learn English fluently in English and learn English in the same environment as native English speakers. There are many summer schools in every part of the UK.

Personal Education Coaching Program

Training The coach is the person who guides, guides and informs him / her in order to improve the success of his / her education.

UK Scholarship Universities

A scholarship is a financial reward for a student to advance his or her education. Scholarships are usually awarded based on a variety of criteria that reflect the values and goals of the donor or the founder of the award. The scholarship money does not have to be paid back.

Certificate Program in the UK

English education institutions stand out for their long years of experience in language education. It is possible to find certificate and diploma programs combined with language training. Acceptance conditions are more common in the UK than in many other countries.
